

# ASCP Concrete Pavements Conference 2011

## Conference Newsletter 2

---

The Conference is now just a day away.

Registrations open from 8.00 am Tuesday 2<sup>nd</sup> August. The Conference will start promptly at 8.45 am. On arrival, collect your name badge, program, and USB containing the Technical Papers (courtesy of Aurecon). One paper was received too late for inclusion on the USB, and this will be emailed to all delegates following the Conference.

ASCP is delighted to have Chris Harrison, Group General Manager, Engineering Technology Services Branch, Roads & Traffic Authority of NSW to open our first *Concrete Pavements Conference*.

We will have some 110 people at the Conference, a number which is most pleasing. There promises to be a great deal of knowledge transfer and a lot of interaction and networking. We expect this to be a most successful and beneficial day. With 13 technical presentations, it promises to be a long day.

The Conference Dinner will allow discussions to continue, and we are endeavouring to ensure that our international guests will be allocated over several tables to encourage interaction with delegates. During the Dinner, there will be a presentation from Mark Snyder, President ISCP on activities within ISCP and a presentation from Luc Rens, Managing Director Eupave about European concrete pavement activities.

On our Conference Page on our web site you will find the final program, accommodation options, updated list of exhibitors, and updated list of Conference Delegates.
